

## ”PATTERN RECOGNITION ON THE LOVE BOAT”

---

### Hatutus 2010 Autumn Seminar and Meeting M/S Baltic Princess (Tallink), November 26-27

Welcome to the next bi-annual seminar and meeting of Pattern Recognition Society of Finland. The event will take place on M/S Baltic Princess ship cruising in the deep waters between Helsinki and Tallinn. This is the Christmas party cruise and the ship is fully booked. Therefore we have booked double cabins for the *30 fastest participants only*. The cruise will be memorable both science and social wise.
